

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

ETYMOLOGICAL AND PRONOUNCING

DICTIONARY

OF

THE ENGLISH LANGUAGE

INCLUDING

A VERY COPIOUS SELECTION OF SCIENTIFIC TERMS

FOR USE IN SCHOOLS AND COLLEGES

BOOK OF GENERAL REFERENCE

BY

THE REV. JAMES STORMONTH

AUTHOR OF 'SCHOOL ETYMOLOGICAL DICTIONARY AND WORD-BOOK'

'THE HANDY SCHOOL DICTIONARY.' ETC.

THE PRONUNCIATION CAREFULLY REVISED BY

THE REV. P. H. PHELP

SEP 1879

FIFTH EDITION, REVISED

WITH A NEW AND ENLARGED SUPPLEMENT

WILLIAM BLACKWOOD AND SONS EDINBURGH AND LONDON MDCCCLXXIX

302 . f. 65.

The Right of Reproduction is reserved

PREFACE.

result of the labours of many and to supply a full and comsing, etymological, and explanry of the English Language, unusual number of scientific, other terms, in a handy form rence, and at such a price as in the reach of persons of the means. Many new and imwill be found in the work.

ay Words.—These are printed k type, and in single letters, rm in which words are usually reader. Capital letters begin as proper names, and others ys so printed. This distinconsiderable use to the learner. familiar colloquialisms, and terms useful for reference by er, have been freely inserted the addition of participial terfound a useful feature.

of Words.—The Dictionary d under a leading word, from be presumed naturally to fall timply follow in alphabetical wever, are they so grouped rived from the same leading heir alphabetical order may y disturbed. When words to out of their alphabetical lso be found in their place wence to the heading under unped. Care has been taken than extent as to create diffi-

culty in consulting the work, but the alphabetical order of words in respect of their terminal letters is in no case attended to in the grouping. The plan of grouping will be found to have important advantages. The words the most nearly related are immediately presented to the eye in a bold, black type, and not senttered over several pages, morely because their terminal letters are different.

The Pronunciation.—The Dictionary word for pronunciation, are respelt phonetically with italic letters, and divided into syllables by dots instead of hyphens, and accented. The pronunciation has been carefully revised, in conformity with the best modern usage, by the Rev. P. H. Phelp, M.A. Cantab., to whom the Author has also to acknowledge his great obligations for very valuable assistance he has afforded in other departments of the work. The scheme of phonotypes or sound-symbols is fully detailed in a Table at the beginning of the work, and again briefly repeated, for the convenience of reference, at the bottom of each two consecutive pages. The leading word of each group is uniformly respelt and marked in full; but the succeeding ones, especially when the seat of the accent is the same, have, generally, only the terminal parts respelt, the full respelling of the leading word being sufficient to indicate the first part.

out of their alphabetical lso be found in their place or the supposed roots, enclosed within brack-rence to the heading under ets, the works of the best and most recent under the words given as derived from the non-classic

sical languages—that is, not from the Latin and Greek - Wedgwood, Latham, and Max Müller have been generally followed. When a Latin or Greek noun is given as a root-word. the genitive case is frequently added in order to exhibit the literal elements more prominently to the learner. For the same reason, in Latin verbs, the supine in um is often preferred to the infinitive in re. It must not be supposed that all the root-words given within the brackets indicate really the ultimate sources of the English words. In a very large class of English words they really are so, as in scientific terms, and words directly derived from the Latin or Greek, or in the case of that large class which are merely imitative of natural sounds or natural appearances. The root-words are meant to show-(1) the probable origin of the English words; (2) their primary meanings; or, (3) their equivalents in other languages. The root-words may be considered as a core for a group of related English words. Apart from this their chief use in an educational point of view, their meanings will be found highly useful in enabling the general reader to ascertain, in most cases, without difficulty, the primary significations of the English words. When no meaning is attached to a root-word, it is to be considered as an analogue—that is, it has the same sense as the leading Dictionary word. In regard to a numerous class of English words usually considered as derived from the literary Latin, or from the Latin through the French, Italian, or Spanish, the best authorities now teach precisely the opposite. Such words are really derived from some one of that large class of related European languages called the ROMANCE, including the French, Italian, and Spanish: or from a source common not only to them, but also to English and literary Latin. Literary or classical Latin had its origin in the unwritten languages and dialects of Italy. When the former ceased to be a living tongue, the latter still survived. In the same way, the present substratum of literary English has not sprung from the Anglo-Saxon of Wessex only, but from it and the languages and dialects, however derived, spoken in every While these facts part of Great Britain. must be distinctly borne in mind by the student, it is convenient to retain the fiction of derivation from or through the literary Latin in regard to the classes of words referred to. In this view, the exact equivalents of English words in Italian, French, or Spanish, will be found highly aseful and significant.

It will be observed in numerous instathat successive entries occur of words a precisely in the same way, and that they so entered because they are derived from ferent roots, and have, of course, different nifications. This fact of itself will affor striking example of the advantage of har related words grouped under their com root-words, instead of the usual plan of I lish Dictionaries of having the most cor dictory senses placed under the same which itself, in two, three, or more of the senses, has quite a different origin, tho spelt in the same way.

The Meanings. - The meanings of words are those usually given, but they h been simplified as much as possible. In way of definition there will be found, howe a vast quantity of entirely new matter. separate entries made, in works of the se kind, to indicate distinctions in the signif tions of verbs, when used transitively and transitively, have been abandoned, as coni ing to the learner, and as practically usele at the same time, however, the distincti themselves have generally been retained. attempt has been made to render the def tions exhaustive; yet in these the work very full. Very frequently words in a gro ending in nes, ble, and bly, especially last, are not followed by definitions. so found, the meanings are easily forme Thus, distinctness, state of being distinct distinctly, in a distinct manner; bleakne state of being bleak; bleakly, in a ble manner; improvable, that may be improve improvably, in an improvable manner; is provableness, state of being improvabl Thus, ble, meaning "that may be;" bl manner; and ness, state of being.

The Appendices.—They are—a note in 1 gard to prefixes being placed first—(1) A ft list of postfixes in alphabetical order, havit their origin indicated, and followed by exar ples of their use; (2) A list of common abbrruictions, with their meanings, and their fu uncontracted forms, when not English, withibrackets; (3) A very full list of Latin, Frencl and other phrases, the name of the language and their signification in English.

Concluding Remarks. — Such is a brioutline of the nature and contents of the
present work. In a work necessitating separat an amount of research, and the elaboration of so great a mass of matter from suc

ources during the unremitting y years, there cannot but occur rrangement that may call for am, or at least call forth differm. Where, too, there is such a , symbols, and marks employed, elaborate details, errors may oclieved, however, that these will few in number, and of little imsides the Rev. Mr Phelp, already ighly-qualified gentlemen were e revision of the proof-sheets as ssing through the press. The o acknowledge his obligations to en for their important services. easor of Geology in the Durham Physical Science, Newcastle, well-known works on Geology Geography, specially attended to the correctness of the numerous scientific terms introduced into the work.

To give a list of authorities used in compiling the present work would serve no good end. Suffice it to say that numerous works have been diligently consulted and compared, including the best and most recent authorities. While the Author's field of review has been a very extensive one, and while he has of necessity trodden a path common to authors of works of the same kind, it is hoped that no undue use of materials from other works has been made. The most laborious care has been employed, and considerable expense incurred, in securing accuracy. The Author trusts that this work will secure public approbation, and fulfil, in the opinion of those best able to judge, the objects for which it is chiefly designed.

gH, October 1871.

NOTE TO THE SECOND EDITION

ections have been introduced of the work. A Supplement roper Names have also been applement contains about 450 s—chiefly such new scientific as are now becoming current terature. Several emendations body of the work, and new ex-, have also been inserted in

The List of Proper Names cripture proper names taken authorised version. (2) all the ound in the Apocrypha, (8) ul names, and (4) common ther names all respelt for ecording to the method emstionary. In placing the acity of Smart and Dr Smith d-chiefly the latter. In re-

on a considerable number of spelling the proper names, and employing the sound-symbols used in the Dictionary, a distinctness and precision have been given to the pronunciation of them never before attempted. Dr Page and the Rev. Mr Phelp have carefully read over the Supplement. Mr Phelp. and two other gentlemen well known in the literary world, kindly took the trouble carefully to go over the List of Proper Names, and adapt their pronunciation to English usage. It will be observed, however, that though the pronunciation according to English idiom and usage has been preferred, the strictly classical has been sufficiently often indicated. It is hoped that, with these improvements and additions, this work will not only maintain the high position which it has already attained, but find increasing favour with the general public.

September 1874.

NOTE TO THE FIFTH EDITION.

THE sale of three large impressions of the 'Etymological and Pronouncing Dictionary of the English Language,' in the course of about four years, is sure evidence that the public have appreciated the present work; and that neither the Author nor the Publishers were mistaken in their opinion that there was a place and a use for such a book in our current literature. The Dictionary has now found its way to every part of the world where the English language is spoken or taught; and is extensively used in Universities, Colleges, and in the Higher Class Schools. And not only this, but in every sense it has proved a highly popular work, admirably adapted for reference in the Household. the Counting-room, and the Club. Its usefulness has been the more appreciated, in that the work contains not only a very extensive selection of scientific and commercial terms, but also the class of words found every day in the newspapers and other periodicals. A very important feature is, that the definitions of the words are given, not in mere synonyms as in most other works of the class, but in simple and extended meanings. Numerous notes and remarks have been introduced for explanation and illustration. giving thus a cyclopedia character to the work; while it is of a handy portable size for daily reference, and of a very moderate price, if the mass of its contents be taken into account.

In the Fifth Edition, a considerable number of corrections have been made in the body of the Dictionary; and the former Supplement has been replaced by another containing about four times more words and matter the supplementary words now numbering

in all over 1500. During the past few years, many new scientific and other terms have taken their place in our current literature. and obsolete words have been revived. These have been carefully noted and introduced into the present Supplement. Useful Law, Slang, and Provincial names have also been inserted. Such words as agnostic, amortissement, arles, atavism, avizandum, block-system, bogey-engine, camerlengo, chauvinism, clerical error, clientele, coccyx, contango, coxswain, creche, and curia, taken at random from the first pages, will sufficiently indicate the importance of the extensive new Supplement added to the Fifth Edition. Finality in a Dictionary is impossible. Language is constantly undergoing changes: and a Dictionary, to maintain its value, must faithfully record such mutations. It is accordingly the duty of a Lexicographer to note these changes, and where they are likely to be useful, and retain their place in the language even for a time, to introduce them, for the information of others, into his work. Such has been carefully, and it is hoped successfully, done in the present Edition, and at no little expenditure of labour and money. The Author has full confidence that the general public, and the heads of schools and colleges, will continue to show their appreciation of the present work, especially in its improved form; and that its already extensive circulation will be greatly increased. He has again to acknowledge the deep obligations under which he lies to many literary and other gentlemen who so ungrudgingly gave him their advice and assistance in the preparation of the Supplement. These services it would be invidious to particularise.

SCHEME OF PHONOTYPES OR SOUND-SYMBOLS

FOR THE

PRONUNCIATION OF WORDS.

Note.—(·) is the mark dividing words respect phonetically into syllables; ('), the accent indicating on which syllable or syllables the accent or stress of the voice is to be placed. The marks (') and (') above the vowels are to be understood as having relation to the character of the sound alone, not to the prolongation, or the reverse, of the sound—that is determined in ordinary cases by the accentuation of the word. The mark (') above the symbols alo, alo, and alo, designates these as diphthongal sounds.

lound-symbols employed in Kespelling.	Representing the Sounds as exemplified in the Words.	Words respelt with Sound-symbols and Marks for Pronunciation.

ETYMOLOGICAL DICTIONARY

OF

THE ENGLISH LANGUAGE,

AND REFERENCE BOOK.

A, a, the first letter of the alphabet in most languages; an adjective of number, signifying one; the indefinite article—used before adjectives or nouns that begin with a consonant or with the sound of a consonant; an Anglo-Saxon prefix signifying at, to, a, or or; a Greek prefix, also its form an, signifying vithout, not; a Latin prefix, with its forms ab and abs, signifying from or away.

A 1, a one, a mark to denote a ship of the first class as to newness and being seaworthy.

Aaronic, a a-rōn-ik; also aaronical, a.a-rōn-ik-kd, of or pert. to Aaron or his priesthood.

ab, db, a Latin prefix; also a and abs, signifying from or away.

ab, ab, a Latin prefix; also a and acc, signifing from or away.

A. B., first letters of Artium Baccalcarens—drish; win, of arts; bakk-ladieri-tis, bachelor — meaning Bachelor of Arts, an academic title, aback, ad d-bak (AS on-bacc), on the back; backwards, as used by sailors; by surprise; unexpectedly, absens. n. db'd-kid. (L., from Gr. dabakos, a board for calculations), a counting frame; in arch., the crowning table of a column.

Abaddon, n. d-bdd'dfm (Heb. abad, to be lost or destroyed), the destroying angel of the bottomicss pit.

destroyed), the destroying angel of the bottomicss pit abaft, ad., prep. d-bdf* (AS. aftan, after, behind), a seaman's term; at or towards the stern or hinder part of a ship; behind, a bandon, v. d-bdn*ddn* (F. abandonner, to desert), to give up; to desert; to forsake entirely; aban doning, imp.; aband doned, pp.; add,, wholly forsaken; given up; extremely profligate or corrupt; aband donment, a giving up wholly; a total desertion; abandonner, in the person who gives up, a total desertion; abandoner, in the person who gives up, a based, the foot additional to the desertion abandoner, in the person who gives up, a based, the foot additional to the desertion abandoner, in the act of humbling or bringing low, abash, v. d-bath* (old F. abah*, to see agape, to confound) to confuse with guilt; to make abaned; abah*ing, imp.; abashed, pp. d-bdsh*, confounded; put to silence; abah*ment, n. confusion from shame, abate, v. d-bat* (F. abattre, to beat down: It, abbat-q, to overthrow), to lessen; to lower in price; to grow less; to subside: aba*ting, imp.; aba*ted, pp.; aba*ted; aba*ter, n. the person or thing that abates.

B. deserter, to beat down, piles of trees or their larger ranches, with sharpened points outward, laid down for the protection of troops.

ABEL

remering; as cueant, n. **kant, also ab dica'tor, **kat' for, one who : abdicative, a. db'dick' da'th; causing or implying abdication.

**abdomen, n. db'do'men (L., from abdo, I conceal) the lower part of the belly: abdominal, a. db'dom's nick, belonging to the lower belly: abdominal, a. db'dom's nick, having a large belly: abdominal, action of the abdom's nick, having a large belly: abdom's nick, having a large belly: abdom's nick, abdom's nick,

aberration, n. db-ér-rd:shán (L. ab; erro, I wander), a wandering from the right way, as from truth; moral perversity; mental weakness; an apparent motion of the fixed stars: aberrant, a. ab-ér-ran; differing widely; aber ring, a. wandering; aberrance, n. db-ér-rans; also aberrancy, n. db-ér-rans, a wandering from the right way.

abet, v. d-béf (AS: old F. abetter, to incite; abouta, to set dogs on), to aid; to incite; to encourage, chiefly in a bad sense: abet ting, imp:: abet ted, pr. abet too, no one who abota or encourages, usually in a bad sense:

n. one who abets or encourages, usually in a bad sense: abet'ment, n. abe'd'ans (F. abayer, to gape at, to pant after), state of being held back for a time; state of expectancy; temporary suppression. abhor, v. do. hoir (L. ab.) horren, is hake or look terrible), to hate very much; to despise; to detest; aborring, inp.; abhorred, p. db. hoir's abhorrence, n. db. hoir's ns, very great hatred; abhorren, r. the person who abhors: abhorrent, a. db. hoir's ns, terrible, the distribution of the distribution

person who abhors: abhorrent, a. db-hor-rent, hating; odious; repugnant to: abhorrently, ad-tl.

Abib, n. d'bib (Heb. ab, swelling, protuberant), the first month of the Jewish year; also called Nisan.

abide, v. d-bit (As, abidan: cloth, beidan, to expect, to resmin; to continue; to rest; to be limit, abide, v. d-bit (As, abidan: cloth, beidan, to expect, to remain; to continue; to rest; to be limit, abide, v. de limit, abide, v. de limit, abide, v. de limit, abide, v. de limit, abide, abideit, abide abideit, abide abid

away or taking irom are signined: ablaston, 40-43-shin, a taking away.

able, a. 45b (see under ability), having sufficient power to do; qualified; skilful; fitted for: ably, ad. 45bi: ableness, n. 45bi-n8s: able-bodfed, 4d, hav-ing a sound strong body; able to work, ablution, n. 45bi-65shin (L. 45; liso, I wash), a wash, ing, cleansing, or purification by water: abluent or 45bi-65t, cleansing by liquids: n. an attenuant or

dolid-int, cleansing by liquids: n. an attenuant or purifier.

abnegate, v. db:nā-qdt (L. db; nego, I deny, to deny; to renounce: abnegating, imp.: abnegated, pp.: abnegated, pp.: abnegated, pp.: abnegated, n. one who denies.
abnormal, a. db:nō-nō-ndi; also abnormous, a-mis (L. db; norma, a rule), irregular; anything out of the usual or natural course; without rule or order: abnormally, n. db-nō-ndit, incellularity; deformity, aboard, and or in a ship or book; lock bord, the side abode, n. or in a ship or book; lock bord, the side abode, n. db:ndits, book of the ship or book; lock book of the ship or book; lock book of the ship or book; lock of the ship or book of the ship or book of the ship or book of the ship of the ship or book of the ship of t

abomasus, n. d-bo-ma'zus (L. ab; omasum, tripe),

the fourth stomach of ruminating animals; the par

the fourth stomach of ruminating animals; the par of the paunch nearest the intestines. abominate, v. d-bōmi-nat (L. abominor, I wish away, I detest—from ab; omen, a portent), to hate excessively; to abhor; to detest abom'nating, imp, abom'na'ted, pp.; abominable, a. a-bōmi-na'ba, very hateful; detestable; abom'nably, ad. d. abomination, n. d-bōmi-na'ba, thu, no object of extreme hated or detestation; evil doctrines or practices.

aboriginal, a. abo-ri-fil-nat (L. ab; origo, gen. original inhabitant of a country; aborigines, n. abi-original inhabitant of a country; aborigines, n. abi-original stock, flora or fauna, of a geographical area.

abortion, 1. abort-khin (L. abortio, a miscarriage—from orior, I arisel, anything that does not come to mought; abortive, abond'in, mp; abound of, pp: abundance, n. a-būn-idans, great store; overflowing quantity; abound'ant, a plentiful; fully sufficient; abun'dant, abount, prec. d-bōict' (AS, abutan—from ymb, about, prec. d-bōict' (AS, abutan—from ymb,

ad. -11.

abun'dant, a. plentiful; fully sufficient: abun'dantly, add. H. about, prep. d.bōūet (AS. abudan—from ymb, around; utan, outward), enetreling; near to; concerning: ad. nearly; here and there.
above, ad. a-būet (AS. abufan—from a, on, be, by; ufa, high: Dut. boven), overhead; in a higher position: prep. higher in place, rank, power, or excellence; in excess: above-board, openly: above all, preference to all other things: above cited or above mentioned, taken notice of in the preceding part of a book: above-ground, alive; not buried.
abracadabra, n. dbirdied.ddbird, an Assyrian delty; a word used in incantations, or as a charm. abrade, v. d-brdd' (L. ab; rado, I serape), to rub or scrape off; to waste by friction: abra'ding, imp.: abra'ded, pp.: abrasion, n. dbirdiedin, the operation of wearing away by rubbibg or friction; a superficial injury from friction.
Abrahamic, a. dbirdiedin, delta (Abraham or his age. abranchiata, n. pln. d-bringist-did (Gr. a, without; branched, the gellu of a fish), apple for a, without; branched, the gellu of a fish), apple and the abreast, ad. a breat' (AS. a, and breast), side by side; keeping equally forward.

irrelevant, a. fr-rêlid-valut (in, not, and relevant)
not applicable; not to the purpose; not serving.

support: irrel'evantly, ad. -lf: irrel'evancy, n. -rdn-st, also irrel'evance, n. -vdns, the quality of not being

of also irrelevance, n.-odes, the quality of not being applicable.
irreligion, n. tr'rê-lij'im (in, not, and religion: P.
irreligion), contempt of religion or the want of it; profanences; implety: irreligious, a.-lij'is, profane; implous; whicked: irreligiously, ad. -li: irreligioussess, n. quality or state of being irreligious; want or religious.

rengion.
irremediable, a. irremediable, (in, not, and remediable), that cannot be cured; not to be corrected or redressed: irremediably, ad. bis: irremediableness,

states, and tambot be the control of the control of

recovery.

irrepealable, a trive pelid-bl (in, not, and repealable), that cannot be revoked or annulled: irrepealable).

bidly, present and the revoked or annulled: if repeal-ably, and bit.

ably, and bit.

ably, and bit.

irrepresents a strength bit strength bit strength and representable, not representably, ad bit.

irrepresents bit, a string-protect bit (sn, not, and representable, a string-protect bit (sn, not, and represeible), that cannot be represent or subdued; not to be restrained: irrepresentably, ad. bit.

irrepresentable, a string-protect bit (sn, not, and representable, a string-protect irrepresentable, a string-protect bit, not, and reprocable), that cannot be justly reproved or blamed: irrepresentable, a string-protect bit (sn, not, and reprocable), that cannot be justly reproved or blamed: irrepresentable, at string-proved bit (sn, not, and reprocable), that cannot be justly reproved or blamed: irrepresentable.

oble) that cannot be justly reproved or blamed: irreprovably, ad—bit is the property of blamed: irreprovably, ad—bit is the property or blamed: irreprovably, ad—bit is the property of blamed: irreprovably, ad—bit is the property of blamed: irreactions, and is the property of the cannot be resisted or opposed: irresistibly, adbit: irresistiblity, a bit-it, also irresistibly, adbit: irresistiblity, a bit-it, also irresistibly, adbit: irresistiblity, a bit-it, also irresistible, abstraction of being dissolved or set free; that cannot be resolved into parts.
irresolve, a ir-resid-bit (in, not, and resolved), not firm or constant in purpose; not decided; wavering given to doubt: irresiolitately, ad. i: irresolvation, n.
irresolvable, a irresid-bit (in, not, and resolved), that cannot be resolved.
irresportable, a irresiolved bit (in, not, and respective), an irrespective, a irrespective is followed by of, irrespiration, and irrespective is followed by of, irrespiration, irrespondible, a irresion-bit (in, not, and responsible, not responsible, a irresponsible (in, not, and responsible), not responsible, a irresion-bit (in, not, and responsible), not responsible, a irresion-bit (in, not, and responsible), not responsible, a irresion-bit (in, not, and responsible), not to be retrieved; not to be recovered or repaired: irretrievable, a irretievad; not to be recovered or rebit (irretrievable, a irretievad; not to be recovered or rebit of the irretieval in the irretieval irretieval in the irretieval in the irretieval irretieval irretieval irretieval irretieval irretieval irretieval irretieval irretieval irretiev

irreturnable, a. tr:re-tern'd-bl (in, not, and return-

able), not to be returned.

irrevealable, a irrevel'd-bl (in, not, and reveulable), that may not be revealed: irreveal'ably, ad

irreverent, a ir-revier-oni (in, not, and reverent; L irreverent, that does not show veneration: It irreverents; F irreverents; A is irreverents; A irreverents

reverence.

- irreversible, a. ir'rë-vër'si-bl (in, not, and reversible),
not to be changed; not to be recalled: ir'rever'sibly,
ad. -blt: ir'rever'sibleness, n. -bl-nës.

- irrevecable, a. ir-rëv'o-kd-bl (in, not, and revocable),

that cannot be recalled or annulled; not to be revoked or reversed: irrev'ocably, ad. bil. irrigate, v. irri-pall li. irrigatum, to water, to irri-gate—from in, on, and rigo. I moisten or water: It irrigare, to moisten land by causing water from a stream or canal to flow upon and spread over it; to water: irrigating, inn.; irrigated, pp. waterd: irrigation, n. pd'shim, the operation of cause water from a siream or canal to flow upon and spread water from a siream or canal to flow upon and spread the growth of plants: irriguous, a irrig-dedic water; moist: dew; well waterd.

over land with the view of nourishing and increasing the growth of plants: irrigatons, a *tr-tigi-tas, water, moissions, a *tr-tigi-tas, water, a water a

bursting in; a sunder suddenly in or upon-tive, a. die, rushing suddenly in or upon-tively, ad. di. ss; Ger. ist; L. est; Gr. esti; Ban-asti), 3d pers, sing, pres, of the verb be, isagogic, a. t-ad-gd/ik, also isagogical, a. d-k-(Gr. eisagogickos, introductory - from eis, into, an-ago, I lead), introductory; belonging to an intro-

duction.

tasgon, n. tsd-gön (Gr. tsos, equal, and gonio, a angle), a figure whose angles are equal.

tschiatic, a iskt.dick (Gr. tschion, the hip), pert to the hip; is chium, n. -im, the hip-home.

to the hip; is chium, n. -im, the hip-home.

ischury, n. iskbirt, also inchuria, knitria diction, inchuria, ischirt, also inchuria, knitria, diction ischo, I stop or retain, and ouron, urine), the suppression or stoppage of urine; ischuretia, n. -rick, medicine adapted to relieve ischury; adj. having the quality of relieving ischury.

ischipterus, n. is-kip-ter-is (Gr. tschies, strengthen of body, and pteron, a fin), in god, a genus of ganet fishes with smooth rhomboldal scales.

iscrine, n. isstrine, from the river laser, in Silesia

isorine, n. t-śer-in (from the river Iser, in Silesia near whose source it was first found), a mineral of su-iron black colour and of a bright metallic lustre-found in angular grains, rolled pieces, or in the form

found in angular grains, rouse pieces, or in the brai-der of the singeon-from housen, a sturgeon, and blass, a bladder: singlass, a corruption of housen-blass, probably from connecting the name with its employment in scing, or in making jellies), a pure-kind of gelatine, gelatinous and semi-transparent, ob-tained from the sounds or air-bladders of certain freshwater fish; fish-glue.

Isis, n. Usis, one of the chief deities in the Egyptian

Isis, n. t-sis, one of the chief deities in the Egyptian mythology.

Isiamism, n. is-id-mizm (Ar. islam, obedience to the will of God—from salama, to submit to God), the religion or creed of Mohammed: Islam, n. is-idm, the religion of Mohammed; the whole body of the father, and the countries in which Islamism. Is present is lamitic, a. -mitik, pert. to Islamism. island, n. it-idm (As. igland—from eage, an eye: Fris. coge, an eye, an Island: literally, eye-lond—the true etymology being preserved in eyo for nid, a small island in a river, a spot of land surrounded by water, in the same manner as the eye in the face; a tract or portion of land wholly surrounded by water: is lander, .-er, an inhabitant of an island; is landed, a. formed as an island.

f (L. insula; It. isola; old F. isle, island), inlet, n. i'let, a little island. idr. isos, equal), a prefix denoting equality

stric, a. Fs6-bär'ō-mēt'ric (Gr. isos, equal, iric), indicating equal barometric pres-

m, a t-se'ort's (Gr. isos, equal, and briao, han), in bot, applied to the dicotyledons, seth seem to be developed with equal force. h, n. t'se'-kdr-dt-d (Gr. isos, equal, and kurheart), the heart-cockle, a genus of bivalve succerised by their large ventricese or sub-

mal, a. f:so.kt/mal, also i'sochei'minal, a. kt. tsos, equal, and cheima, winter), of the same mperature,—applied to imaginary lines pass-gh places which have the same mean winter

matic, a t'so-kro-matitik (Gr. tsos, equal, and seleur), having the same colour.

and, a t-so-kro-ndt, also iso-kro-nous, a tess, equal, and chronos, time), occurring in es, or at intervals of the same duration, as of a pulse: iso-kronism, n -ntm, the pro-

times.

a the life will (Gr. 4000, equal, and kinnels, port to or indicating equality of inc dip is sectional lines, imaginary lines on its surface passing through places where the edge or inclination is the same.

a, n. tiel-krim (Gr. 4000, equal, and krumos, as laid down on a map or chart to mark the equal extreme cold on the surface of the contract of the contr

spand down on a map of chark to mark the squal extreme cold on the surface of the squal extreme cold.

a. n. t-sédé-món (Gr. tsodomon, built a teor, equal, and demein, to build, a build-th the masonry was cut and squared to the state of the squared to the squared and equal and demein, to stone, when laid, square and equal square and equal, and force, having the same power or force; power, and capable of producing the same

farmal, a. t'sō-jō-ō-thèr'mdl (Gr. isos, equal, arth, and therme, heat), applied to imaginary thisions on the earth's crust which have the ma annual temperature—restricted to land

is, a. t'so-gén'it' (Gr. isos, equal, and gonia, having equal lines,—applied to imaginary mag through all places on the earth's surface the borizontal magnetic needle makes the de with the meridian.

Isos, a. t'so-Mt-t'-tos (Gr. isos, equal, and dash, applied to imaginary lines on the earth's memoring places which have the same mean Mill of rain.

af rain

m of rain.

v. 4.60-Ldf (It. tsolato, solitary: F. tsoler, to
rem L. tasula, an island), to place in a demation; to insulate; to place by itself: i'soma: i'solated, pp.: adj. placed by itself or
martion, n. -44-sain, state of being isolated

s, a. tiel-mir/ik (Gr. isos, equal, and meros, sensed of the same elements in the same probest having different physical and chemical st. isometrism, n. t-som/tr-tim, identity in iso, but with difference of properties: isomi-dis, in bot., applied to the organs of a flower, is isomposed of an equal number of parts. disal, a. tiel-mirit-fried (Gr. tsos, equal, and a measure), pert. to or characterised by imagesure.

a measure), pert. to or characterised by a measure, white, n. it-so-moi-fism (Gr. isos, equal, and isrm, alsape), the capability shown by two or sple or compound substances to crystallise in the same form, or approximating very closely a similarity of form is generally combined milarity of other physical properties: isomor-file, composed of different elements, but poshe same or similar crystalline forms, or a lisaw or right: isomomic, a. it-so-moi-file, the squal is law or right; one in kind or origin. instricted, a. ties-pert-i-mei-ri-kut (Gr. isos, vt., pound, and meron, a measure), of equal

perimeter or circumference: isoperimetry, n. përim: ê-tri, the science of figures having equal perimeters or boundaries.

r countaries.

isopod, n. *iso-pód, isopoda, plu. *.**op*o-da (Gr. *sos, qual, and podes, feet), an order of insects inving the eggs all allie: isopodous, a. *cop*o-da'ds, equal-legged, isopyre, n. *iso-pir (Gr. *tos, equal, and pur, fire), an interal of a greyish er black colour and of vitreous thereto and of vitreous control of the lugtre.

lustre.

isoscels, a t-sös's-t-léz (Gr. tsos, equal, skelos, a leg),
having equal sides or lega—applied to a triangle having only two equal sides.

isostemonous, a t-sös-têm'ō-nüs (Gr. tsos, equal,
and stemon, a thread or stem), in boh, applied to stamens and floral envelopes which have the same number of narts or multiples.

mens and floral envelopes which have the same num-ber of parts or multiples. isotheral, a t-sotheral, a t-sotheral consumer, of the same mean summer temperature. isothermal, a t-so-ther-mal (Gr. tsos, equal, and therme, heal), having the same temperature; of equal temperature; applied to imaginary lines connecting all those places on the surface of the globe which

all those places on the surface of the globe which have the same mean temperature.

isotomic, a 'ico'c'm'ik' (Gr. isos, equal, and tonos, tone), in music, having or indicating equal tones.

Israelite, n. israelite, a triti, also israelit'ish, a tritish, pert, to israel or to a dew.

israel, h. israelite, a triti, iso israelit'ish, a tritish, pert, to israel or to a dew.

israel, h. israel, is to the same or to a dew.

israel, h. israel, is to go on out; L. experience, to go out; I. to go les go out; in userre, to go out, to spout), the act of passing or flowing out; that which happens or turns out; end or utilizate result; children; offspring; circulation, as of bank-notes; giving out or delivering for use; the point in dispute in a suit at law; v. to send out or forth; to put in disculation; to deliver a source; to end or terminate; to arise; is suing, imp. u. a flowing or passing out; a sending out, as of notes for circulation; is fissed, pp. shidd; adj. descended; is rueless, a shid-les, childless; if ser, n. ε*r, one who: is thmus, n. ist*muis (L. isthmus; Gr. isthmos), a neck of land uniting two larger portions together, or a peninsula to the mainland; isthmian, a. mt-du, pert. to an isthmus; Isthmian Games, one of the four great national festivais of anc. Greece, celebrated on the Isthmus of Corinth every alternate year.

It, pron. if (AS. hit; Dut. het; Icel. hitt; L. id), the pron. of the 3d pers. sing. neut. non. or obj.; the thing already spoken of. Note.—If in a sentence stands instead of, and refers to, a place, animal, thing, quality, or clause, but often to nothing definite, as, if rains.
